- Problem-solving
- Communication
- Multitasking
- Teamwork

RECENTLY PROJECTS

Ocean Jewels Restaurant   Next.JS, TypeScript, API Routes

A full-stack Restaurant application offering a diverse menu of fresh seafood dishes. The project features a unique and engaging user interface (UI) that enhances the customer experience. Users can easily browse the menu, manage their cart, and maintain a wishlist.

Snapgram   React.JS, TypeScript, TanStack, Appwrite

A full-stack social media application similar to Instagram that allows users to share photos and videos.

Animation UI   Vanilla JS

A web application focused solely on animations, showcasing a variety of dynamic effects and transitions.
